

Accelerated Type 1 Diabetes detection that meets you where you are

Identify more patients with early-stage Type 1 Diabetes (T1D)—with no changes to your existing workflows or resources. Reveal for T1D’s advanced clinical AI solution is simple to deploy and uses existing data to accelerate the diagnosis and treatment of Type 1 Diabetes, resulting in higher clinical and financial yield.

Lucem Health is inviting leading health systems to join a **fully-sponsored** Type 1 Diabetes early detection program—help shape the future of Type 1 Diabetes care while improving outcomes today

Deployment, activation, and adoption made easy

Reveal for T1D identifies patients at higher apparent risk for presymptomatic, early-stage (stage 1 and 2) Type 1 Diabetes.

55x diagnostic improvement. \$50k per patient in immediate revenue.¹

- **Analyzes** existing patient data using industry-standard integrations and finds those at statistically higher risk for Type 1 Diabetes.
- **Surfaces** risk-stratified patients in simple, manageable list and plugs into your existing outreach and engagement processes.
- **Integrates** into your clinical workflows and existing Type 1 Diabetes screening process.

How the Reveal for T1D Early Adopter Program works

Zero cost. Full support. Real results.

- Gain full access to Reveal for T1D for one year with no software or implementation fees.
- Get set up quickly with hands-on support from our implementation and customer success teams.
- Assign a clinical lead to oversee evaluation of identified patients for screening, working closely with us to ensure success.

Why Type 1 Diabetes?

Diagnosis Opportunity

85–90% of individuals with Type 1 Diabetes are **diagnosed at its latest stage** (stage 3).²

Diagnosis Impact

Early intervention prevents life-threatening complications, enables clinical trial enrollment, and creates **access to therapies that may delay or prevent stage 3 Type 1 Diabetes.**

Financial Opportunity

Generate **\$50,000 in immediate revenue per patient** for each treatment course completed. Plus, savings of \$19,000 per patient annually.³

How to find out more

Reach out to Lucem Health at DetectT1D@lucemhealth.com to discuss the opportunity and any logistical considerations specific to your health system.
